

Customer contacts report

Use this report to produce a list of customer contacts or create emails with attachments to send to one or a selection of contacts. Customer contact records are maintained on the Sales - Processing - Contacts form.

To Print Contact Details or Email Contacts

1. Open the Sales Ledger folder and then click Reports - Customer Contacts or click the Financials tab and then click Sales Ledger - Reports - Customer Contacts on the Ribbon Bar.

2. Using the list boxes provided, you can select which record to include on the basis of one or a range of 'Accounts', 'Types', 'Regions' and 'Territories'. You can also select by date of birth range.

3. Under Contact Type, click to select whether you want to include account, order or other contacts in the range of selected records.

4. Under Allow, select the contact details you want to use as selection criteria. Use the list box alongside to determine whether the selections are inclusive by selecting And or Or.

5. If you want to include 'dormant' customers, select the Include Dormant Accounts option.

6. Under Attributes, you can select specific attributes to narrow the list of selected contacts further. These attributes are created on the Sales - Maintenance - Contacts form and are allocated to your contacts on the Sales - Processing - Contacts form.
